

DATASHEET

Commercial name:	MP-350
Description:	Natural calcium carbonate, powder, granular, no dust
Application:	Aggregate for stripping, cleaning of surfaces
Packing:	25kg paper bags on pallet 1.2T or big bag of 1000kg
Storage:	In a dry place and in the original packaging until ready to use the product

Product composition:

1) Calcium carbonate	CaCO ₃	98 %
2) Magnesia	MgCO ₃	1,50 %
3) Ferric oxide	Fe ₂ O ₃	0,05 %
4) Not soluble HCl		0,20 %

Particle size:	an average of 510 microns
Particle shape :	angular
Color:	beige
Odor:	odorless
Density :	~ 1,6 g/ ml
PH solution:	~ 8.5
Hazard labeling:	does not require special labeling

No danger of fire and explosion, this product is not combustible.
No measures necessary for the protection of the environment.
